## Feb 18-19 AutoX

Wow, two whole days of bright sunshine. A little on the chilly side, but thank you for the fantastic dry weather. Thank you also for everyone that came. We even had some competitors Moms there braving the afternoon ocean breezes. I had a great time helping with the race and watching all the racers go round and round. Dave set up a great course. Not too much fun for those of us that have a hard time with 180 boxes, but technical experience comes with time. I know I will figure it out someday. Speed Braking Power; too much buys cones, too little buys time. I thought the course had a good balance of speed and cornering. It was awesome watching the different cars and drivers thru the slaloms and corners. I was so distracted that I flagged Don Chandler thru the course for a third lap. Did you catch Mark Chandler's fun run in Dave Price's car of 143.04? I did not see it but I hear it was smoooooth. I know the races were not for points or trophies, but everyone is always happy with their best times, and the chance to improve their times with practice. That is not to deny spirited competition between everyone. Thank you again to all of you who came out to compete and help run the event. With out the registrar to organize the paperwork and signatures, the timer to keep everything in order and record the event we would not be able to remember who and what we did. Thanks also to the tech and cook and all the rest of the course workers that keep the event rolling. Doug
