Here it is nearly the longest day of the year, and I don't have my winter projects done!

Those of you who remember Bobby Boggs, who moved to Florida to go to airplane mechanics school listen up: He is getting married on July 8 in St Petersburg! Maria Arroyo is his chosen. Way to go Bobby!

At the last general meeting there was discussion about many things, important and not. We decided to change the way we give Top Time of Day trophies. Now the Karts are eligible for TTOD (held out of contention previously). I suspect that

if we get a bunch of 125cc karts we may again make changes, such as a 'Kart TTOD' all by itself?? We also initiated a 'Top Time of Day Door Slammer' for the fastest street licensed car with normally operated doors. We chose to make these changes retroactive to cover all the points events this year. (I always wish to give MORE trophies.)

We reiterated our need to class cars properly, as it affects us all. It may not be easy, and there are grey areas but there are guidelines such as the Sports Car Club of America, who posts such on the web. (We have some unique classes also.)

We also discussed our policy on 'ride-alongs' at the Autocross, such rides are 'for instructional purposes' only according to our insurance provider. They are limited to licensed drivers. They are supposed to be limited to a driver and an instructor. I only repeat this so that everyone knows the intent of our policies, which have been in place for many years but seem to be forgotten on a regular basis... the sheets called 'additional autocross information' is available at registration and has some of our guidelines. Another policy speaks to children in the pits, and near the actual course. Check them out.

Am I done yet?
